

Robotics Camp

Learn How to program a microcontroller!

With a microcontroller you can build robots, turn on/off motors, relays, LEDs, LCDs, interface WIFI, Bluetooth, radio frequency, infrared; play MP3files, and monitor sensors (light, heat, motion, and more!)

1. Camp runs from 2:00 pm until 5:00 pm every Tuesday beginning Aug. 26th.
2. Campers grades 8 thru 12 bring laptops.
3. Camp taught by Mark Merry, PhD, Computer and Informations Systems professor of Information Technology at Campbell University.
4. Only a \$50 deposit for supplies is required.
5. Please direct any questions to Dr. Merry at dr_marksmerry@yahoo.com or call/text 919-586-1369.

This camp is only open to grades eight through twelve. The registration deadline is Friday August 22nd and space is limited. Your child's spot will be reserved upon receipt of the supply fee and registration form. Please register through Connie Connelly at cconnelly@swake.org.
